TECHNICAL DATA AND CODES:

ELECTRICAL AND PNEUMATIC INSTALLATION GH-20

- **Tensión / Voltage:** 220 / 380 V
- **Frecuencia / Frequency:** 50 Hz (mono o trifásica / single or triphase)
- **Potencia instalada / Installed power:** 0,1 kW
- **Tubo de malla / Net tube:** diámetro estándar de 165 mm / standard diameter of 165 mm
- **Tipo de fleje / Clip wire type:** 3 x 0,5 mm
- **Diámetro de la bobina de fleje / Clip wire reel diameter:** 150 mm
- **Peso de la bobina de fleje / Clip wire reel weight:** 4,3 kg
- **Número de grapas/bobina / Number of clips/reel:** 17.000
- **Peso / Weight:** 80 kg (aprox. / approx.)

FEATURES

The **GH-20** is a strong and reliable semi-automatic net packing machine that makes bags from tubular net.

It is extremely easy to use. The product to be packed must be loaded into the tube with tubular net and, with one easy action, the device clips the bag and cut the net on the tube to be ready for the next packing cycle.

An essential item is to add a label including all the product information like bar code, price or any other necessary data for the sale. In addition, the bag made with the **GH-20** machine can also be complemented with a Bolduc tape. Different widths (from 12 to 30 mm) of Bolduc tape are available.

The **GH-20** can be fitted with different accessories: **Wineglass** label or Bolduc dispenser, or **Clip2Clip** label roll holder. It can be adapted to any type of weighing machine thanks to different available accessories.

GH-20	
CÓDIGOS / CODES	DESCRIPTION
201-0085	GH-20 MONOFÁSICA SIN ACCESORIOS / GH-20 MONO-PHASE WITHOUT ACCESSORIES
201-0082	GH-20 TRIFÁSICA SIN ACCESORIOS / GH-20 TRI-PHASE WITHOUT ACCESSORIES
ACCESORIOS / ACCESSORIES	DESCRIPCIÓN / DESCRIPTION
152-0400	JUEGO ACC. DIÁM. ESTÁNDAR 165 MM / SET OF ACC. STANDARD DIAM. 165 MM
